

~~SECRET~~

MEMORANDUM FOR: ASSISTANT COMPTROLLER, CIA

SUBJECT: Operational Security Aspects of Financial Support

REFERENCE: Secret memorandum of 11 April from DADPC to Assistant Comptroller, CIA, on subject.

1. The reference designated OPC representatives to assist the Task Force in the matter of operational security standards in connection with the financial records [redacted]

[redacted] Due to the current absence at Headquarters of a person with the necessary operational background to draft an adequate proposal, we have not as yet produced the requested set of standards and criteria which should be observed in connection with financial records.

2. The employee most suited to prepare such a draft is now on detail to the newly created Commercial Division. However, he will be able to work on this problem as soon as the detail is completed. In the meantime, it would be of great help if the Task Force could present a rough draft on its idea of such criteria which could be shopped among our Divisions for comment.

STAT

[redacted]
Deputy Assistant Director for
Policy Coordination
